

KY ARES Bulletin Release 003
February 9, 2008

For widest amateur radio distribution possible. Please include in club newsletters, web sites, and Kentucky amateur radio email lists.

To all ARES Appointees,
Per KY ARES Bulletin 001 released 11/1/07, ARES appointees who have not renewed their appointment or are not in the process of doing so have had their ARES appointments cancelled with ARRL HQ.

This cancellation is an administrative matter should not be seen as a reflection on the operators. All operators affected are still ARES Members in good standing. They simply chose not to continue in their position and did not renew. All are welcome to reapply for their former positions.

Information on active ARES appointees are listed on the local information pages on the KYHAM web site at www.kyham.net.
